

ACCOUNT-BASED SALES DEVELOPMENT AND ABM

HOW TO ORCHESTRATE THE PERFECT CAMPAIGN

Lars Nilsson

VP, Global Inside Sales, Cloudera

AGENDA

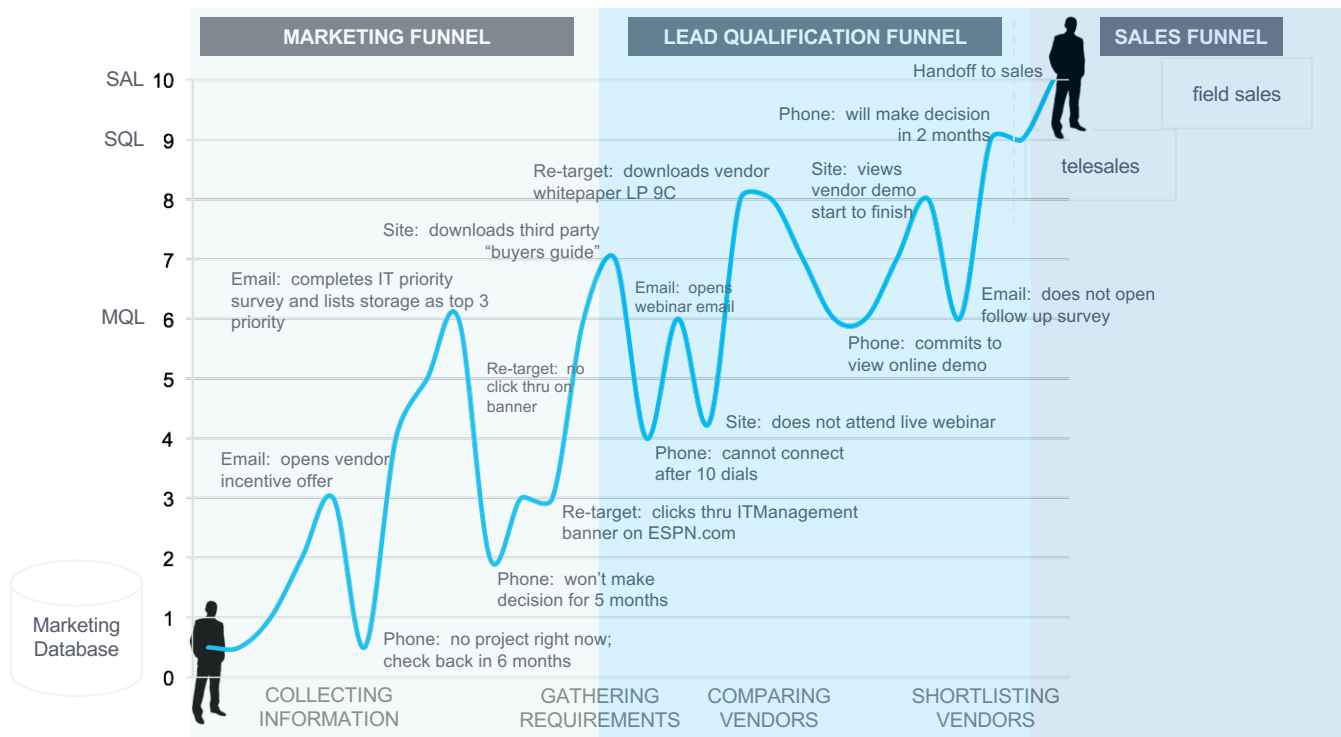

- Inbound Leads – Sales' Perspective
- What is ABSD?
- Why ABSD?
- Prioritizing ABSD Campaigns
- When to run an ABSD Campaign
- Working and strategizing with Marketing
- How to execute an ABSD Campaign
- Key takeaways

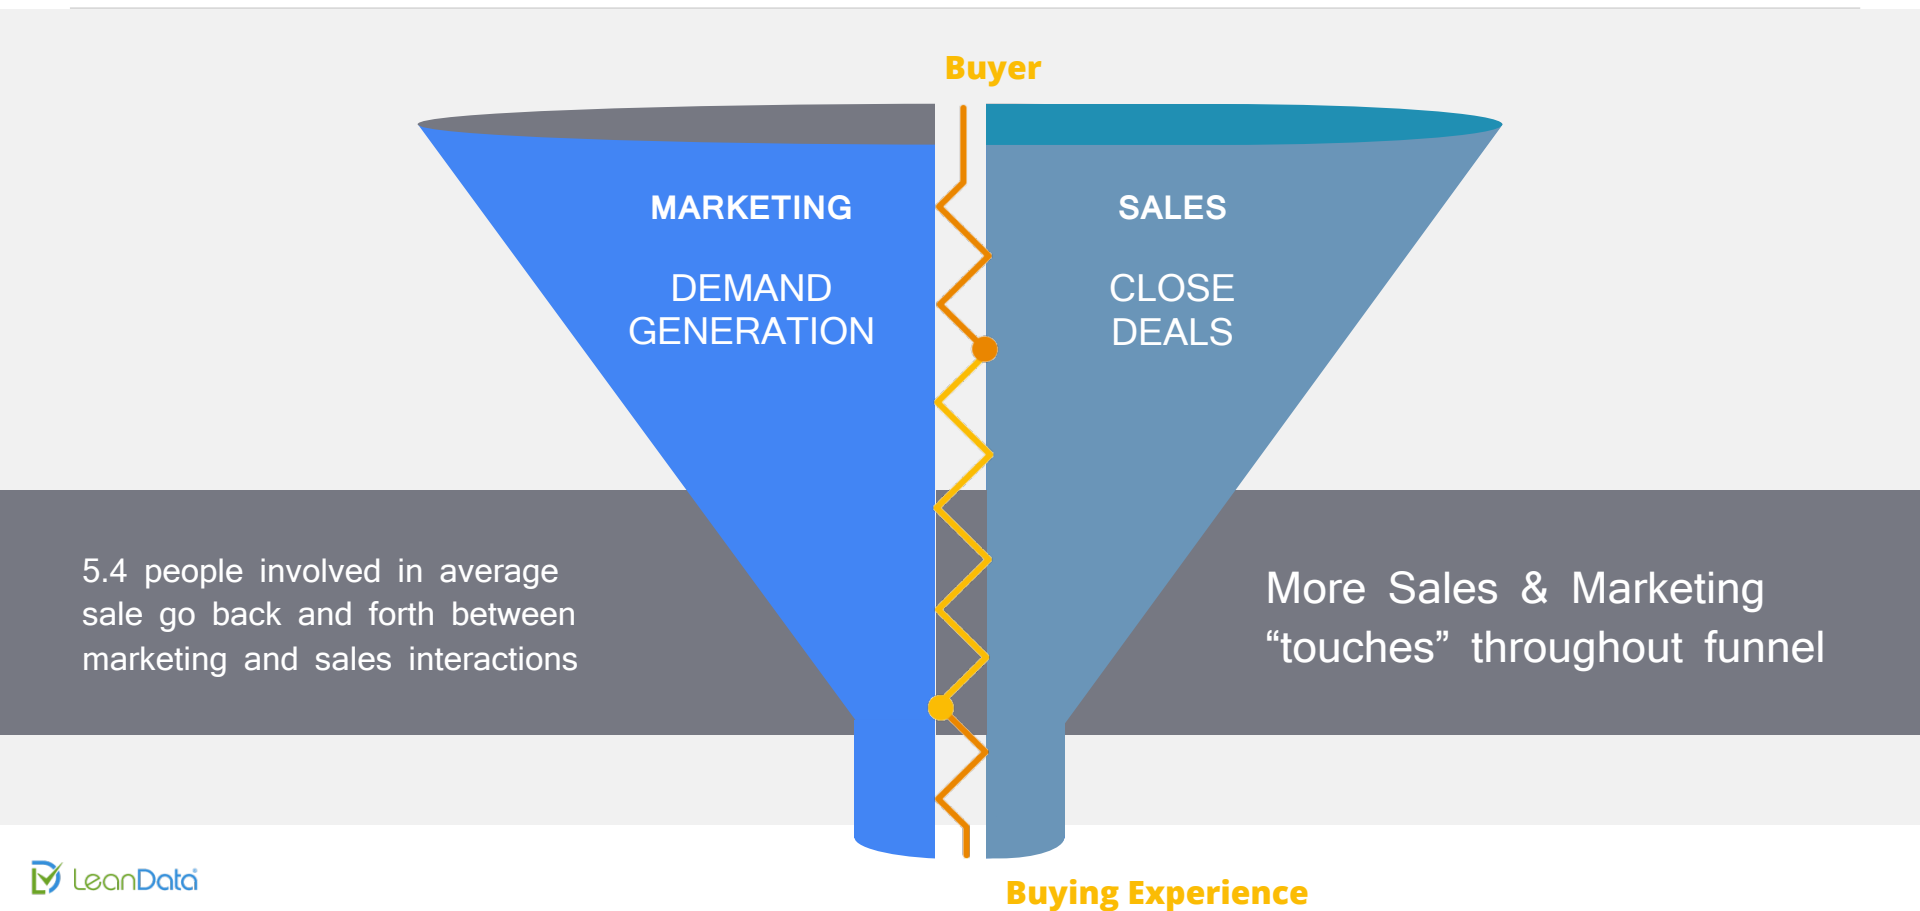

THOUGHTS ON INBOUND – SALES PERSPECTIVE

- 
1. Sales will not follow up on Leads, they will follow up on Qualified Leads
 2. Definition of an MQL – Sales Must Be in the Room
 3. Content has to be Educational AND Inspirational
 4. Intelligent Nurture Campaigns that ***path*** and ***lead to offer***
 5. Must Auto-convert in the new ABM/ABSD world we live in
 6. Anything measured improves
 7. SDR Compensation – Only comp. on what an SDR can control

THE BUYER JOURNEY TAKES TIME – BE THERE ALONG THE WAY

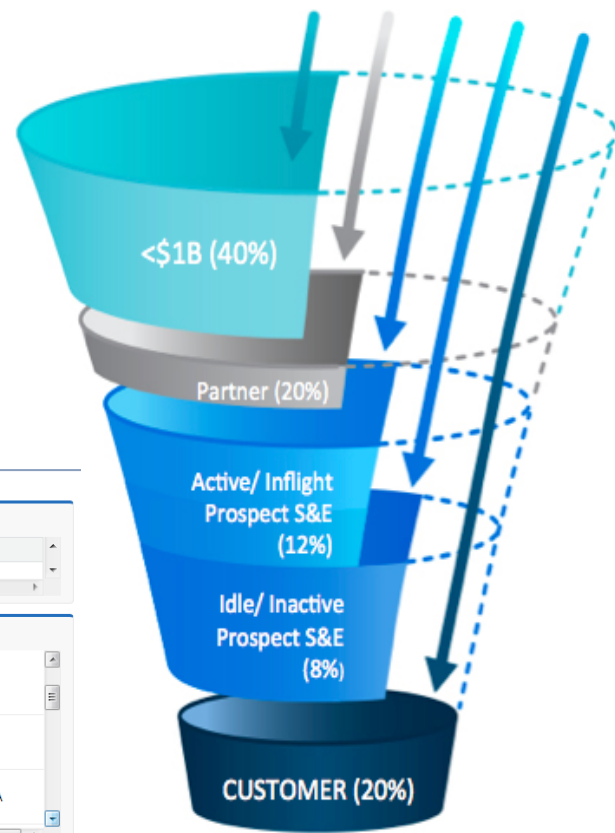

THE MODERN B2B FUNNEL

REVOLUTIONARY! THE *LEAD TO CONTACT* BRICK WALL COMES DOWN!

- Auto Mass Convert of TAM Leads to Contacts
- Auto TAM Lead Convert to Account Contact

WHAT IS ABSD?

Account Based Sales Development (ABSD):

The coordinated process of developing new qualified new and expansion pipeline in your Target Addressable Market, by proactively running sales development led multi-touch email “sequences” into specific accounts.

This method allows one to create and deliver relevant use-case specific content to a specific buyer persona in hopes that they will take an initial discovery meeting with you.

- Has to mention account-specific information and triggers
- Can be prospect or customer accounts

WHY CLOUDERA PIVOTED ITS FOCUS TO OUTBOUND & ABSD

Problem:

- Aggressive Pipeline \$\$\$ Targets
- Very well-defined TAM ($G8K = G2K + N6K$)
- BUT, not enough MQL's from TAM Accounts

Meanwhile...

- Unprecedented amount of contact-level information in LinkedIn and DiscoverOrg
- Access granted to Demand Gen team's ABM tools (Demandbase, Bombora, Eloqua)

In turn...

- Orchestrated email campaigns with Outreach

HOW TO PRIORITIZE TARGET ACCOUNTS FOR ABSD CAMPAIGNS

- 
1. Have an account planning session with your AE to understand which accounts are of highest priority; ideally top 5-10
 2. Set up triggers and alerts using DiscoverOrg, Google Alerts, Sales Navigator and Eloqua Website Visits
 3. Monitor buying signals with intent data from Bombora and DemandBase Sales Accelerator on a weekly basis
 4. Think about which events, webinars, whitepapers, blog posts or product announcements would be relevant for your target accounts

IDENTIFYING CONTACTS

- 
1. Mass Convert any leads within your account in SFDC
 2. Run a SFDC report for contacts within your account
 3. Run a report in DiscoverOrg
 4. Run a report in Sales Navigator
 5. NOTE: When building contact lists, be sure to filter by persona or business unit you want to target

RESEARCHING AND CREATING MESSAGING FOR AN ABSD

- 
1. Copy and paste links into a Google Doc
 2. Read through links and highlight use pieces of information such as stats, key stakeholders or company initiatives; if you're spending more than 2 hours researching, you're doing it wrong!
 3. Outline email templates 1-3 with quotes, links or any other content you want to reference
 4. Connect with your peers to see if there's any similar ABSDs you can use as a framework
 5. Loop your Partner Sales Rep and Field Marketing Manager as they can help you identify partners and possibly create account-specific activities (lunch and learns, dinners, happy hours, webinars and demos)
 6. Begin writing!

EXECUTION: ANATOMY OF AN ABSD CAMPAIGN AT CLOUDERA – EMAIL #1

Subject: Strategic Big Data Planning at [REDACTED] in 2016

Subject line to capture attention.
High Open = Great Job

Strong “trigger” or
“hook”,
referencing a
known initiative

Hi {{first_name}},

I recently read a Wall Street Journal article citing your CIO [REDACTED], who said [REDACTED] was considering Hadoop to better analyze customer data. Currently, another major US based airline is using Cloudera's distribution of Hadoop to create a complete 360-degree customer profile that allows for highly-personalized content offerings. With Hadoop they are able to:

- Provide recommendations based on mobile app snack or beverage purchases
- Combine clickstream analysis with the [REDACTED] website to identify behaviors that indicate a higher propensity to buy
- Analyze age group and travel pattern
- Determine tendency to purchase ancillary services
- Significantly reduce proprietary database spend

Relevant
industry use
cases

We would welcome the opportunity to discuss what is important to [REDACTED] in 2016, and provide insight into what we are seeing across the airline industry.

Thank you for your time,
Marcus

EMAIL #2

Hi [REDACTED],

I wanted to follow up on my previous note in order to address where Cloudera and Hadoop could bring value to you and your peers at [REDACTED].

Cloudera delivers a modern platform for data management and analytics to help you get value from all your data. World class organizations are leveraging Hadoop to collect and analyze data to enable:

- **Customer Acquisition & Retention:** Through analyzing petabytes of data from click streams, [Quaero](#) saw a 200% increase in registered users and doubled the CPM
- **Accelerated Data Velocity:** By moving it's ETL platform to Hadoop, [BT](#) was able to process 5x more customer data and delivered ROI of 200%-250% in one year
- **Operational Savings:** [Siemens](#) built their supply chain cloud solution on top of Cloudera's Enterprise Data Hub and experienced estimated cost savings between \$15 and \$25 million

Additional industry use cases, and demonstration of success

Let me know if you have a few minutes to connect for an intro call to go over the use cases that you are interested in learning more about.

Best Regards,
Marcus

EMAIL #3

SDR's tweak and make
their own

Educate prospect on
"way out"

Hi [REDACTED],

I figured I would do one last flyby, as I know you are extremely busy! A simple A, B or C response would be appreciated.

- A. I am interested and would like to talk further about Cloudera, Hadoop and Big Data
- B. I am interested but follow up with me a month from now
- C. I am not interested in Cloudera + Hadoop at this time

In the mean time I wanted to share the article I previously mentioned quoting your CIO, [REDACTED]

EXECUTION: EMAIL #1

Subject: Big Data in Agriculture – A 2017 Roadmap

Subject line captures attention

Hi Joanne,

Harrison McCain was recently quoted saying "If you can't measure it, you can't manage it." I can see that McCain is quickly adopting a data-driven approach to its operations, especially in the agro space.

I support Cloudera's team in charge of strategic initiatives in Canada, and would love to share how we've been helping your industry peers.

Account-specific references

Examining all the variable factors (soil, climate, crops) that can affect crop growth requires a massive volume and variety of unstructured data from multiple sources (but you know that). If **precision agriculture** continues as a priority moving forward, I would love to share how Cloudera can partner with McCain to further these initiatives and help increase your overall ROI.

Here are [some of the ways other agriculture organizations have leveraged our technology](#):

- **Smart Weed control**, seed planting, and more
- **Optimize fertilizer application** based on satellite imaging, soil data, weather data
- **Use remote sensing** to detect variability in soil and crop conditions
- **Lowering your costs** to treat insects, diseases, and weeds by eliminating them where they start
- **Identify localized nutrient deficiencies** and enable crop inputs by zone management.

Relevant industry use cases

When is a good time to connect in the coming week(s)?

Best regards,
Andrew

KEY TAKE AWAYS

- Make sure you always have 3-5 broader campaigns (horizontal and verticals) actively running
- Keep ABSD messaging specific to the target account
- Don't reinvent the wheel every time!
- ABSDs are most effective when you have buy-in and support from your AE
- ABSDs are not one-offs
- Don't forget about partners!
- See if your Field Marketing Manager can help by setting up an account-specific activity
- Set up manual call tasks for your ABSD so you can follow-up with people who open your emails

THANK YOU
