Traffic Sources >> Social >> Plugins

**Social Action = Like,
Share, Tweet, +1.**

Mas só o Google+ vem
de fábrica.

Precisamos configurar o
Facebook e o Twitter.

```
<script type="text/javascript">
var _gaq = _gaq || [];
_gaq.push(['_setAccount', 'UA-xxxxxx-x']);
_gaq.push(['_trackPageview']);
(function() {
var ga = document.createElement('script'); ga.type = 'text/javascript';
ga.async = true;
ga.src = ('https:' == document.location.protocol ? 'https://ssl' :
'http://www') + '.google-analytics.com/ga.js';
var s = document.getElementsByTagName('script')[0];
s.parentNode.insertBefore(ga, s);
})();
</script>
```

Verifique se está usando o código assíncrono do GA!

http://www.frankmarcel.com/ga_social_tracking.js

Abra o link e salve no seu computador.

Faça o download do javascript acima

```
<head>
```

```
...
```

```
<!-- Google Analytics Social Button Tracking -->
```

```
<script type="text/javascript" src="http://www.meusite.com/  
ga_social_tracking.js"></script>
```

```
...
```

```
</head>
```

Faça o upload no seu servidor e chame na <head>

```
<!-- Load Twitter JS-API asynchronously -->
<script>
(function(){
var twitterWidgets = document.createElement('script');
twitterWidgets.type = 'text/javascript';
twitterWidgets.async = true;
twitterWidgets.src = 'http://platform.twitter.com/widgets.js';
// Setup a callback to track once the script loads.
twitterWidgets.onload = _ga.trackTwitter;
document.getElementsByTagName('head')[0].appendChild(twitterWidgets);
})();
</script>
```

Mais um pouco de código no <head>

```
<!-- Google+ Scripts -->
<script type="text/javascript">
(function() {
var po = document.createElement('script'); po.type = 'text/javascript';
po.async = true;
po.src = 'https://apis.google.com/js/plusone.js';
var s = document.getElementsByTagName('script')[0];
s.parentNode.insertBefore(po, s);
})();
</script>
```

Só mais esse. Ctrl+c, Ctrl+v (cmd para MacOS)

```
<body>
<!--Facebook Scripts-->
<script src="http://connect.facebook.net/en_US/all.js#xfbml=1"></script>
<script type="text/javascript">_ga.trackFacebook();</script>
...
```

Agora, esse logo após abrir a tag <body>
